

This document contains release notes for the Version 3.8 release of FOIAonline, for release after COB on February 8, 2019. This document provides a summary of enhancements, bug fixes, and other updates contained in the release.

New Enhancements

- Added the ability for Helpdesk users to edit public user accounts.
- Added the ability for registered users to update the email address associated with their account.
- Updated the Advanced Search export to include Legacy Tracking Number, Agency Assigned To, User Assigned To, Submitted Date, and Track columns.

Bug Fixes

- Fixed issue where agency users' notification preferences would not be retained on My Account page.
- Fixed issue where the Raw Data Export would include fees collected outside of the fiscal year.
- Fixed issue on Year End Annual Report where:
 - Sections would continue to display when no data was available.
 - Tables in Section VII would display zeroes or <1 when no data existed.
 - Section III would not display the terms and acronyms in alphabetical order.
 - The Percentage of Fees Collected in Section X were calculated incorrectly and displayed as greater than 1.
 - The decimal places in Section X would display incorrectly.
 - Section IV Statutes Used would not allow Case Citation or Information Withheld to be blank.
- Fixed issue where Raw Data Upload would not allow Perfected Date to be blank.
- Fixed issue where sub-agencies containing the same text as another sub-agency would display twice in the Year-End Annual Report and Agency Administration section.
- Fixed issue where requests could not be opened after deleting anything off a linked task.

Other Updates

- Added Monday, December 24, 2018 to the list of Federal Holidays that do not count as FOIA processing time.
- Added Home Page text to address the government shutdown.
